

About the Program...

The **Master Beader Program (MBP)** is an innovative and adaptable instruction program for beaders structured around three increasingly skilled levels:

- **Apprentice/Beginner;**
- **Journeyman/Intermediate; and**
- **Master/Expert.**

As an **Apprentice** you will acquire fundamental skills that will serve you well regardless of the beading path you choose to pursue. You will learn the basics of stringing, knotting, how to use findings, how to choose materials, as well as the basics of color and design. You will also be encouraged to explore a variety of beadweaving and related techniques. This level is designed to kindle your passion for beadwork and give you an overview of the breadth of the amazing world of beads!

At the **Journeyman** level your skills and workmanship will flourish. You will begin to focus your interests and develop expertise in the techniques you most enjoy and gain experience using design and color effectively in your work. You will experiment with technique variations and work on increasingly more complex and interesting pieces. Remember that learning doesn't stop just because you are a Journeyman! You will still be encouraged to add new techniques to your repertoire and explore related areas that you find intriguing.

As a **Master** you will demonstrate your mastery of the craft. This is where it all comes together! At this level you will supplement your beading with research into the historical, cultural, and ethnic heritage of beads. This is your opportunity to focus on the skills you need to achieve your ultimate beading goals.
